OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

January 30, 2017

Mr. Kevin R. Kutcel  
Agent for Harvest Tec, Inc  
P.O. Box 63  
2821 Harvey Street  
Hudson, WI 54016

Subject: Label Amendment – Add Instructions for Refillable Containers  
Product Name: **BALER'S CHOICE**  
EPA Registration Number: 73877-1  
Application Date: October 7, 2016  
Decision Number: 522782

Dear Mr. Kutcel:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

PRODUCT COLOR WILL NOT AFFECT PERFORMANCE.

**WARRANTY:** To the extent consistent with applicable law, Harvest Tec, Inc. is in no way responsible for damage to people or property resulting from the use of this product that is inconsistent with this label.

## PRECAUTIONARY STATEMENTS

### Environmental Hazards

For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

### Hazardous to Humans and Domestic Animals

#### DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes. Wear protective eye wear (goggles, face shield, or safety glasses). Harmful if swallowed or absorbed through skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

### Personal Protection Equipment

Wear chemical-resistant gloves, chemical resistant aprons, chemical resistant footwear, and goggles or face shield when loading application equipment unless a closed loading system is used. Avoid walking near high concentrations of spray mist/vapor. Use with adequate ventilation. Wash thoroughly after handling.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Baler's Choice is a preservative for hay that is baled at 16% to 30% moisture. It can be used on alfalfa, Bermuda grass, bluegrass, brome grass, clover, cowpea hay, fescue, lespedeza, lupines, orchard grass, peanut hay, rye grass, soybean hay, sudan grass, timothy, and vetch that is baled in small square, large round, or large square bales. When used in accordance with label directions, it will prevent the growth of mold in the hay and related heating, discoloration, and loss of feed value.

This product may only be used during the baling process if appropriate baler equipment is use which prevents exposure of non-target organisms to this pesticide product. Do not apply to pre-harvest hay and straw, cut hay and straw in the field prior to baling, or to hay and straw after it has been baled. Apply product to the hay and straw as it is fed into the baler, using the rates on this label. The baler application equipment must prevent drippage and drift and must function properly and be used/ maintained in accordance with the manufacturer's written operation instructions.

FOR USE ON HAY: Spray Baler's Choice on the hay as it is fed into the baler using the application rates indicated by the chart below.

	Small Square and Large Round Balers		Large Square Balers	
Moisture	Stem Moisture	Dew Moisture Only	Stem Moisture	Dew Moisture Only
16% - 22%	4 lb/ton	2 lb/ton	6 lb/ton	3 lb/ton
22% - 26%	8 lb/ton	6 lb/ton	10 lb/ton	8 lb/ton
26% - 30%	16 lb/ton	12 lb/ton	DO NOT BALE	16 lb/ton

*Not recommended on any hay above 30% moisture*

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

**PESTICIDE STORAGE:** Seal tightly. Do not store in direct sunlight.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

#### CONTAINER HANDLING:

**Nonrefillable container. Do not reuse or refill this container.** Triple rinse or pressure rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container  $\frac{1}{4}$  full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

Offer rinsed container for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**Refillable container.** Refill this container with Baler's Choice only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the persons disposing of the container. Cleaning before refilling is the responsibility of the re-filler. To clean the container before final disposal triple rinse or pressure rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container  $\frac{1}{4}$  full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

Offer rinsed container for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
